NEXUS – Runs [illegible]

STAP — 4/1 (exempt. (was see STIC)

Hicks request for STAP review (about a year ago)
Reviewed Interim STAR.
Discussed " " w/ [illegible]
" STAR w/ IC

Temporary file (STAP)

Emph on TRW/analyst dialog — (but content?)
Why start in OPA? Sugg. OSR instead
Flex., expand. design. Does TRW understand this?

Human Factors Test Facility — critique TRW for not insisting on this.
Not only interactions w/ terminal, but also the analytic functions.

Pilot system first — (NOT 1/3 as large as final) Not ORD
(Complete terminal 10-30 terminals. (TRW [illegible] contract)

[Will change TRW contract to services & assign design contract]

Options paper — still rough — improved. For feedback to STAP.

STATINTL [redacted]

One option:
Sees need expand Int. STARs for 8/14, using off-shelf equip & s/w.

Sugg look at:
IBM Net (adding 1 lg CPU each) Lged net invld.
Mail systems — six a seven big ones at work.

Not clear TRW is ldg in diagnostic tools for modify'n, data analysis, MIS. Ops mgmt.

VT assured
Options paper to us Tchrs. Also comments on an annex to PC1.
